## LA Skins Fest Film Festival in November

ICAE is proud to be a sponsor for this event again this year. The 14th Annual LA SKINS FEST will be taking place November 17th - 22nd, 2020 in Hollywood, CA.

The Festival is an initiative of the Native American non-profit the Barcid Foundation and aims to showcase the rising talent in Native American filmmaking. This year the LA SKINS FEST is expanding the screening series to accommodate the growing talent in Indian Country.

The prestigious LA SKINS FEST ranks among the country's best film festivals and is an annual gathering for film industry insiders, cinema enthusiasts, filmmakers, and critics. The LA Skins Fest is considered a major launching ground for Indian Country's most talked about films. For more information please go to: <https://filmfreeway.com/LosAngelesSkinsFilmFestival>.

## November is Native American Heritage Month

November is Native American Heritage Month and we have several events planned, including a mini Film Festival! A full line up of film screenings and events will be sent out with registration links after the EG conference. Stay tuned for more details!
